Level: Mid/Senior  
Salary: Market-related  
Location: Riverclub, JHB

### The value you'll bring to our team

This person is a born 'solutionist' – a creative thinker with a passion for elearning and the skills to create engaging, effective learning materials. They are well versed in learning technology and are comfortable working in a fast-paced studio environment.

### Roles and responsibilities of a WinWin eLearning Developer:

- Design and develop high-quality elearning materials using Adobe Cloud and Articulate Storyline.
- Collaborate with subject matter experts, content writers, designers and other stakeholders to build thoughtful, well-rounded elearning solutions.
- Develop and implement elearning strategies and solutions that align with business objectives.
- Manage multiple projects simultaneously, prioritising tasks to meet deadlines.
- Stay up to date with elearning technologies and industry trends to continually improve your offerings.

### The right person for the job...

- Is Joburg-based (*non-negotiable*) and keen to work on-site at our premises
- Has a minimum of 3 years' experience in elearning development
- Has a bachelor's degree in graphic design, elearning or a related field
- Is fully proficient in both Adobe Cloud and Articulate Storyline (*non-negotiable*)
- Has a solid understanding of instructional design and how learning platforms work
- Has a strong design background and a good understanding of UX and UI principles
- Has an impressive portfolio showcasing their **own** elearning development skills and abilities
- Has excellent written and verbal communication skills
- Is able to work independently and willing to quality-check their own work (*attention to detail is a must!*)
- Thrives under pressure and is used to working in a busy, agency-like environment
- Has excellent time management skills
- Is a people's person with a desire to put down roots in a fast-growing, culture-orientated company

### Advantageous

- Instructional design experience
- Animation and/or motion graphic design experience
- Video editing experience
